Weekly Homework

- Mathematics Activity – Sharing the Treasure.
- Early Comprehension – Page 8 only.

Submit:

Thursday, 26th March

Creative Homework

🌟 Build Your Own Clock!

Cut out the numbers carefully and stick them in the correct places on the clock face.

🌟 Remember: 12 goes at the very top, 6 goes at the very bottom.

The other numbers go around the circle in order.

Once your numbers are in the right place, add the clock hands:

👉 The big hand must point to the 12 for o'clock times

👉 Choose an hour and move the small hand to that number

That's it, you've made your own o'clock time! Can you tell me what time you have made? 🕒💛

Submit:

Thursday, 26th 😊
